DEB-100 DOCUMENT EXAMINATION BENCH

The Document Examination Bench (DEB) is a freestanding bench designed to provide operator protection from Ninhydrin and powders often used in the process of developing latent fingerprints.

Air is drawn downwards through a stainless steel perforated work surface using low noise centrifugal fans.

Harmful fumes pass through the units filters, re-circulating clean air back into the laboratory.

There is no need for expensive ducting to be installed due to the units recirculatory airflow.

Its ductless construction allows for the unit to be easily moved.

The safety alarm will alert the operator if face velocity falls below 0.3 M/Sec.

Carbon and HEPA filters are available to suit most laboratory applications.

The stainless steel surface has an optional tilting feature using a linear screw jack.

DEB-01

SPECIFICATION

Catalogue No	DEB-01
Dimensions (WxDxH), mm	1000 x 700 x 900
Main Filter 12kg (qty)	1
Airflow (m3/hr)	200
Pre-filter (efficiencies superior to 99.6%)	1
Face Velocity (m3/sec)	>0.5
Electrical Supply	Single Phase, 230v, 50Hz
Noise (dBA)	55
Switches	Mains ON/OFF
Monitoring	Low Airflow Indicator
Fan	Low Noise Centrifugal
Cabinet Construction	Epoxy coated mild steel frame and stainless steel surface

ACCESSORIES

Catalogue No	Description
DEB-Mag-Lamp	Magnifying Lamp
DEB-Pivot	Pivoting Electronic Worktop

BENCHTOP VERSION

If space is limited in the Laboratory then a Benchtop equivalent is available. Please refer to the DWS product datasheet.

FILTERS

Filter Type	CARBON	HEPA	CUSTOM / COMBINATION
Main Filter No.	FCM-001	FCM-030	FCM-200
Pack of 6 Pre-filters	FCM-PRF		

UK DESIGN AND MANUFACTURE

Designed and built in our Merseyside ISO 9001 accredited facility.
