AiREX Smart Glove Tester®

EXCELLENT AIR MANAGEMENT

Fast and Easy Operation

What's Smart Glove Tester®?

- An advanced, fully automated glove leak testing device with pressure decay measurement.
- A faulty glove assembly presents a route of contamination. By using Airex glove leak tester, small pinholes that cannot be found through visual inspection can be detected.

Benefits

1. Fully automated testing
2. Easy-to-handle design
3. Customizable for any ports
4. Pressure decay testing method
5. Self-sufficient system without any external pumps, tubes, or wires
6. Wireless communication through Wi-Fi
7. 21 CFR Part 11 compliant
8. Complete validation and documentation included
9. Easy to clean
10. Fast, reliable testing time!

Specifications	
Utility	Power AC100V～240V 1.4A max
Battery Charger	Lithium Ion Battery and dedicated charger INPUT AC100-240V 1.4A
Dimension	(W)260㎜×(D)138～183㎜×(H)360㎜
Operating System	Windows 10, Windows 11
Network Communication	Method: Wi-Fi Area: Max 20m inside, 30~50m outside
Simultaneous Measurement	Max 50
Port Registration	Max 99 (Duplicate registration prohibition function)
Security	4 levels 3 Operator levels, 1 Administrator level
Log and Alarm Management	Logs and alarms are encrypted and can be viewed with the dedicated PC software
Date Integrity	Encrypted files cannot be modified

EXPERT
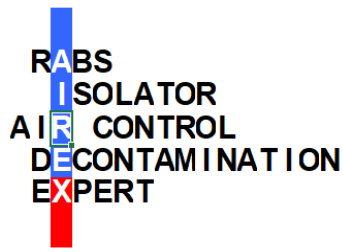

✔ **Simultaneous and parallel mea**
   Max 50 gloves controlled by the SGT so
   allows for timesaving glove integrity te:

✔ **Fast glove integrity verification**
   1 minute integrity test for each glove

✔ **100% Mobility**
   No additional air supply needed with
   automatic glove filling pump

✔ **Status information**
   Pressure, battery status, measurement
   information and testing results are displayed

✔ **Customizable to any port**
   Customizable for different ports.
   Airex has experience with Bosch, GEA,
   Bausch and Strobel ports

✔ **Wireless Communication**
   WiFi communication to PC software

✔ **Easy Operation**
   All operation performed by the Smart
   Glove Tester® touch screen.

✔ **Wireless Communication**
   WiFi communication to PC software

✔ **21 CFR Part 11**
   Software Compliant with 21 CFR Part 11
